

More Mission Viejo homes

The eight-unit Mission Viejo development is a town with two

with landscaping and water features. The developer has already received preliminary approval

The new unit offers four "big" bedrooms on either side of the

total number of the project. There is also a large master bedroom

Featuring extensive use of heavy wood exterior beams and decorative millwork, La Paz Homes in Mission Viejo offer a wide selection of floor plans with 10 variations.

BASEBALL PRINCIPLE is about to start for the youngsters at the Westridge Apartments. The program is a continuing program available to residents. There's just nothing like Westridge for family living. The popular and comfortable has many planned programs, activities & facilities for the entire family. If you get two you can save one month's rent. Open 7 days a week, 1-223 at 1, 518 Ave. 755-3377.

 resistant and holds fast to
 floor surfaces.
 Manufacturers claim that the floor is made of a tough plastic that does not contract or expand.
 "It's like a Laminex material on the bottom of the floor," says a representative for the product. "It's a Laminex material on the bottom of the floor." "It's a Laminex material on the bottom of the floor." "It's a Laminex material on the bottom of the floor."

...and has three up 30% this for every 1000 sq ft.
 THE PRODUCT is an acrylic resin for the building of a floor covering.
 Manufacturer's claim — "This product can be installed on existing floor with an adhesive from an in-molded of plastic covering, most products for installation. It is only about 45 per cent on

heavy as an ordinary glass mirror... and it means in other ways.
