

SUMMIT HOMES: PRICED IN THE \$50'S. When it's time for you to choose your first home, there are a number of things you'll be looking for. You'll want room, of course. Room to grow into, without growing crowded. You'll want a well-built home, with solid, no-nonsense construction and the attention to detail that assures you of long years of comfort and enjoyment. You'll want a location that's convenient to the places you need to go. And you'll want easy access to those activities that fit your lifestyle.

You get all that and more in a Summit home. With a choice of five invisible floorplans offering two or three bedrooms and standard unfinished basements. And with enjoyable options like wood-burning fireplaces, extra baths, covered patios, finished basements and more.

And you'll certainly want appliances, carpeting and fixtures that live up to the high standards of quality you deserve.

Again, the ideal answer is a Summit home. And since it's located in beautiful Mission Viejo, your Summit home comes with a nearby optional membership for a recreational facility with tennis courts, pool, and clubhouse. And it's all convenient to major highways and shopping areas.

When you choose a Summit home, you're investing in a lovely place to live while you build equity for a more secure future. And with the tax advantages of home ownership, you could do it for about what you'd expect to throw away each month on an apartment.

Call a Mission Viejo sales representative today at 693-1343 and make an appointment to see Summit homes in Mission Viejo. And discover how much fun life can be. And how much more quality, convenience and peace of mind you can afford.

FHA and VA financing available.
