

Only in the City

...will you find the care and craftsmanship that produced houses like this. Built in 1891 by a master stonecutter for his own residence.

It is just as exciting inside as out — and probably could not be replaced today or any price. There's no other house just like it anywhere, but we offer many fine homes and condominiums in a variety of architectural styles, from high Victorian to sleek contemporary, from Georgian mansion to Tudor cottage. In city or suburbs. Before you make a move, discover more about the neighborhoods of Denver. Send in the coupon below... or give us a call.

Willowood — more luxury living is coming to southeast Aurora.

Construction is about to begin on 139 spacious luxury homes within that distinctive square-mile community in southeast Aurora known as Mission Viejo.

Christened Willowood, the new project will offer five large and very livable floor plans ranging in size from 1,806 to 2,795 square feet. Prices for the Willowood series are expected to begin in the mid-\$60's. Home buyers ready to move up to the luxury appointments of a Willowood home can choose from tri-level, two story and ranch style contemporary designs which will feature dramatic entryways, cathedral ceilings and bay windows.

Mission Viejo Company, developers of Willowood, is known for quality construction and attention to detail in the homes it builds. The Willowood program is no exception, featuring raised panel wood entry doors and solid oak cabinets in kitchens and baths. Brick fireplaces will have raised hearths and wood mantels beautifully finished to a high gloss. Master baths will be highlighted by separate showers and Roman-style tubs. Brown tone door and plumbing hardware will provide elegant accents, while oversize kitchens will include quality whirlpool appliances. Woodwork and stairways will be richly stained, and there is

plenty of closet space to be found in the luxurious dressing areas. Cameo colored and bathroom fixtures will be standard, and most plans for a three-car garage and standard basement in plans.

Reservations are now being accepted for Willowood, considering the tremendous acceptance of other homes built by Mission Viejo Company, it isn't unreasonable to expect that most of the Willowood homes will be sold before construction is completed.

Mission Viejo Company enjoys one of the best reputations in the industry, because they take a great deal of care in their development projects and in the integrity of the people representing them. It's well they might, since in their many years in business they have helped to build a community. And you are on the scene closely involved with the owners for that long a success can only come through exceptional attention to quality and craftsmanship in everything you do.

For anyone interested in a preview showing of Willowood prior to the spring opening, a Mission Viejo representative can be contacted at 735-2666.
