

NOW—IT'S A NEW BALLGAME...
Mission Viejo Company announces
an unprecedented commitment
to finance
the buyers of its homes with
NO MONEY DOWN*
NO CLOSING COSTS
8½% ANNUAL
PERCENTAGE RATE
FOR 30 YEARS! WHY?

Because last year, when interest rates rose to 12½ percent, over 4,000 people bought new homes in Orange. We are in the new community and home-building business and we want that credit to continue. But this year, buyers had to survive an energy crisis, high interest rates, and soaring inflation. So you could finance home ownership with multiple payment. Many of you decided to wait it out because of high interest rates.

As I said, we are in the business of building new communities and selling homes. Our commitment is to the homeowners, so we make the long-term forward commitment. We are confident that this country's economy will ultimately return to equilibrium. We know that is spite of today's problems with financing, there is still a good demand for homes in a planned, planned environment. We follow our profits—we know our history of success. We have never had to finance so long but we were made so any home we ever built today consistently we were created.

With all this in mind, we feel comfortable with our plan to finance our own townhome projects at last year's 12½ percent interest rate with no money down. Why? Because we know our business. We are confident that our risks in offering this financing are indeed reasonable because you will be proud of your work for the home and environment that has been created.

This commitment reaffirms our faith in the nation, in America's ever-based progress—and, most of all, in you—the people who are the future.

Sincerely,

MISSION VIEJO COMPANY

Philip J. Kelly
 President
